Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of the amendment filed 09/13/2004.

The rejection under 35 USC 102(b) over WO'096 is hereby withdrawn.

The following rejection is maintained in this action:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 10, 18, 19, and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 10, 18, 19 and 20 are indefinite in the use of the word "sample". There is no indication of the sample size or proportion. Clarification is requested.

Response to Arguments

Applicant's arguments filed 09/13/2004 have been fully considered but they are not persuasive.

Applicants argue that the word "sample" is adequately defined in the specification, but then point to the fact that the sample size may be of any size

Art Unit: 1615

without limit. This does not adequately define the invention in that it is not clear that the invention constitutes even a major portion of the claimed particles.

Applicant is advised that perhaps the word sample should be deleted, and claim language should be written to include the word "comprising". In this way, other sized particles may be included but applicant is conveying that the invention constitutes a significant portion of the particles.

Claims 2-9, 11-17, 21-23, 25, 26, and 29 are objected to as dependent upon a rejected base claim.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 1615

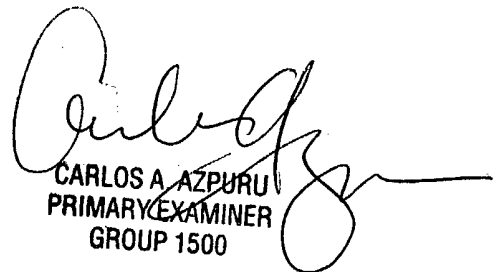

the statutory period for reply expire later than SIX MONTHS from the date of this final action.
